

## Attachment J-C16.4

### NASA Glenn Research Center at Lewis Field

### Elevator Reservoir Monthly Inspection Form

#### ■ Building:

Attention Designated Tank Inspector: Please answer YES (Y or ✓) or No (N or X) for the following questions and state corrective actions to be taken for those items marked with an **N or X**. Please add your initials in the last box with the corrective actions required. Use the back of this sheet to document additional comments/actions.

Date	Spill Kit Present and Stocked?	Fire Extinguisher Present?	Tank is free of leaks, corrosion, and bowing?	Supply and return piping and connections are free of leaks, corrosion, and bowing?	Secondary containment (if applicable) is free of damage, product, and debris?	Tank level gauge is in good working condition?	Tank Labels and NFPA Placards Present?	Corrective Actions and Inspector Initials

Please keep this document at the tank site at a designated area for the Energy & Environmental Management Office collection.  
Please contact EEMO at 3-6468 for questions regarding this document or the tanks being inspected.
